**le supermarché** – the supermarket  
**la pharmacie** – the chemist  
**le château** – the castle  
**le musée** - the museum

### Places in the World

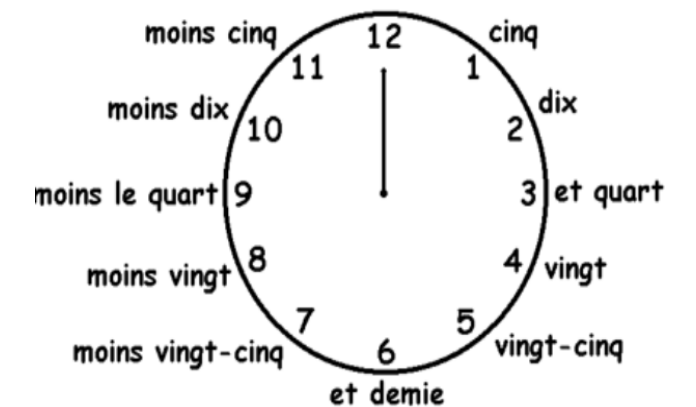

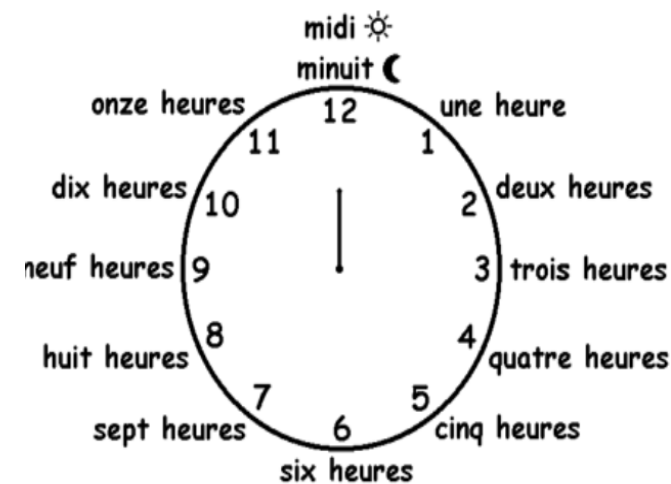

### Telling the Time

**Quelle heure est-il?** – What time is it?

To give the time, use the phrase 'il est ... heures.' (e.g. 'il est une heure.')'

For minutes past the hour, you don't need 'heures', e.g. 'il est une heure cinq.'

### Numbers 60-100

- |          |                |               |              |                  |                |               |                 |                   |                  |                   |                    |      |
|----------|----------------|---------------|--------------|------------------|----------------|---------------|-----------------|-------------------|------------------|-------------------|--------------------|------|
| 60       | 61             | 62            | 70           | 71               | 72             | 80            | 81              | 82                | 90               | 91                | 92                 | 100  |
