

Geography Learning Passport Year 6

Prior knowledge

- Names of countries of the UK (KS1)
- Four point grid references (Y4/5)
- Fair distribution of resources (Y5)
- Volcanoes and earthquakes (Y3)
- Lines of latitude and longitude (Y5)

What I should know by the end of this unit of learning

I can name and locate counties and cities in the UK

I can use different types of map to study the UK and other countries

I can show how land use in the local area has changed over time

I can name and locate the key topographical features including coast, features of erosion, hills, mountains and rivers and how they have changed over time.

I can locate countries in Asia and Australasia on a map and name their key cities, environmental regions, physical and human features.

I can use six figure grid references and have a good understanding of lines of latitude and longitude.

I can describe and understand key physical and human geographic features such as volcanoes and earthquakes (including plate tectonics and the ring of fire) and the distribution of natural resources.

I can use fieldwork to observe, measure and record features of the local area in a range of ways

Key Vocabulary

cities

counties

Australasia

Asia

land use

erosion

plate tectonics

ring of fire

environmental region

grid reference

latitude

longitude

distribution of natural resources

fieldwork

Key questions

- What is it like to live here?
- How do you think this place will change over time?
- Is there more human or physical Geography in this place?
